Revised on Feb 10, 2026 (Article 3 and 5)

Article 1 To encourage students of the Graduate Institute of Library and Information Science (hereinafter referred to as "the Institute") to publish their works, enhance their research capabilities, and strengthen academic exchange, these guidelines are established.

Article 2 Students of this institute who publish papers under the name “Graduate Institute of Library and Information Science, National Chung Hsing University” in domestic or international journals or academic conferences with a peer review system are eligible for the award, provided that the publication date falls within the student’s period of study or within two years after graduation. Applications are reviewed on a rolling basis.

Article 3 The incentive is granted per paper, and only the first author is eligible for the award. Each student may receive incentives for up to **three** papers during their period of enrollment.

Article 4 Application Procedure: Applicants must prepare and submit one copy of the offprint or acceptance letter of the published paper to the Institute's office within the specified timeframe.

Article 5 Approved applications will receive the following incentives:

- (1) Conference Papers: NT\$2,000 per paper (peer-reviewed).
- (2) Journal Papers: Tier 1 journals recognized by the National Science Council: NT\$6,000 per paper. Tier 2 journals recognized by the National Science Council: NT\$4,000 per paper. Other peer-reviewed journals: NT\$3,000 per paper.
- (3) **Awards for Degree Theses (Domestic and International):**
For each award received, a maximum reward of NTD 6,000 may be granted. The eligibility of awards and the amount of the reward shall be reviewed and determined by the Institute Affairs Meeting.
- (4) If a paper has already received an approved reward and the journal in which it was published is officially reclassified to a higher level by the National Science and

Technology Council (NSTC) or other recognized authorities within one year after the publication, the author may apply for a supplementary reward for the difference in amount. This application must be submitted within six months from the date of the reclassification announcement. Upon approval, the supplementary reward will be granted. The application must include the original reward approval document and supporting evidence of the journal's updated classification. Each paper is eligible for only one such application. Late submissions or incomplete documentation will not be accepted.
